8 Features of RM-60

RM-60: designed for weighing and cash control in the open retail market.
Backed by years of experience at DIGI the RM-60 helps your operation by delivering superb value!

1 Receipt Printing

High-speed thermal printer is built in for receipt printing. Easy paper handling is achieved with a simple loading mechanism. Store name and message can be printed on the receipt.

2 Barcode Reader

Scan non-weighing items with the optional barcode reader.

3 Cash Box

Complete transactions with the optional cash box.

4 Operate Under Direct Sunshine

Display data is clearly visible even in harsh sunlight with the reflective type high-contrast LCD.

5 Connection to USB Mass Storage Device

Control prices and data easily through the USB mass storage device connection.

6 Work All Day Without Recharging

Over 12 hours of normal operation for weighing and receipt printing are now possible with the built-in battery.

*Please refer to the specification in the back page. (Built-in Battery is optional.)

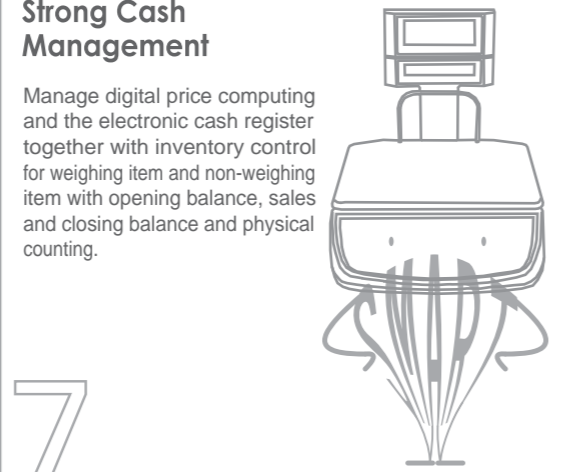

7 Fast Weighing & Stable Display

Designed to weigh quickly and maintain a stable display even in the outdoors.

8 Strong Cash Management

Manage digital price computing and the electronic cash register together with inventory control for weighing item and non-weighing item with opening balance, sales and closing balance and physical counting.

9 Scale Network

Through the standard Ethernet, inter-scale and store controller communication is readily available. Optional: Wireless LAN (802.11b/g/n).

10 Can be connected
